48 JAS. MCCAULEY

The Moose Jaw Times.

FRIDAY, JULY 31 1891

With reference to the letter of "Justice" in another column we wish to state that the accident referred to, was reported in the Times, from information given us by railroad employees who were eye witnesses of the accident. If the facts of the case are not as reported we will gladly make any correction necessary, as it is our aim to report such things truthfully. If the farmer was unable to get his cows off the track before the engine struck them, or if the company were to blame in any way for the accident, he is entitled to compensation. A worse place for a railway crossing, than that near the scene of the accident could not have been selected and if such accidents are to be repeated in future, some change should be made in it.

We have this week sent out a large number of accounts to parties who are indebted to the Times for arrears of subscriptions, advertising and job work, an early settlement of which is requested. The amounts owed by each is but small, but in the aggregate amount to a good many hundreds of dollars, which if paid at once will greatly assist us in our efforts to supply the people of this district with a good local paper. A number of subscribers pay up promptly, but there are a number whose subscriptions are now two years in arrears, and it is to such that we make the above request. A newspaper cannot be run on wind especially when the "devil is to pay." We wish those who have the money to call in and pay up and those who have not it at present, to call in and see us at any rate.

## THE FLOUR MILL QUESTION.

A movement has been started among the farmers of the district to form a Joint Stock Company for the purpose of erecting and operating a flour mill in the town of Moose Jaw. This matter has been frequently discussed at farmers' meetings for the past couple of years, but up to the present with no practical results. The prospect of an abundant harvest has again turned the attention of the farmers to the matter, and this time it appears as if it would be successfully carried through. Stock books have been opened and already more than one-half of the required stock has been subscribed. It is proposed to capitalize the Company at \$10,000, divided into shares of \$10 each, and to erect a mill costing about \$7000. The want of a flour mill at this place has been keenly felt by the settlers, and its erection and successful operation would be a great boon to the district. Agriculture is the staple industry of the Moose Jaw district, and anything that will advance the interests of the farmers should be encouraged by the citizens of the town, as being mutually advantageous. It has been claimed that so soon as a flour mill is required here, and when such an establishment will pay that some capitalists will be found to invest his money in the enterprise. This may be, but in all likelihood a bonus would be asked, and the farmers have wisely decided to go to work and build one themselves instead of giving a bonus. We hope to see this scheme successfully carried out, and before winter comes on, a suitable mill erected. The benefits to the farmers would be seen in cheaper flour, bran, shorts, etc., and in the home market for the produce of their farms.

## THE OTTAWA INVESTIGATION.

The irregularities in the Interior Department at Ottawa, by which clerks drew in contravention of the law, extra pay for extra work done, are being sifted to the bottom, and the guilty parties are meeting with the merited punishment. No voice has been heard and no hand raised by any member of the Government, to prevent the fullest investigation, and the people of Canada can rely on the strictest impartiality, being shown in the matter. So far, not the slightest suspicion of complicity in the illegal transaction, on the part of the Hon. Mr. Dewdney has been brought out in the evidence, and it is certain that the irregularities were carried on without his consent or knowledge. From the evidence of some of the discharged clerks themselves, it appears that this system of permanent clerks drawing extra pay has been in existence for a long time and has become a common practice. One of the witnesses drew money in a similar manner during the administration of Hon. David Mills, under the Mackenzie Government, and the practice has been general ever since. However much these clerks may be entitled to the money earned, it was clearly contrary to the law for them to accept it, and they must bear the consequences of law breaking. There has so far been no evidence of "fraud" as generally understood, neither can the Minister be held responsible for the wrongdoing of subordinates, in cases where such pains were taken to hide their guilt. There seems at the present time to be a general straightening up of affairs at Ottawa, and the course taken by the Abbott Government cannot fail to win the approval of the people of Canada, who wish above all things to see purity in the conduct of the public affairs of the country. At the present time neither party can afford to have uninvestigated charges of "boodling" hanging over any of its leaders, and in every case where such charges are proven, strict justice should be meted out. It is not a party affair, but one in which every citizen of Canada is interested and one affecting the reputation of the Dominion. In his life of Disraeli, Henry M. Lucy says that "a politician should have an assured competency, in order that he may be placed above the temptation or even the suspicion, of being influenced by considerations of monetary necessity." This theory is not practicable in Canada, as the services of many men of ability, but who are poor, would be lost to the country. A man and even a politician may be honest though poor, and politics and hoolie are not necessarily synonymous expressions. If the salaries paid to our legislators and their subordinates are not large enough, to place them above the suspicion of tampering with the public treasury, by all means, they should be increased.

## BUFFALO LAKE.

The grain in this district is all headed out and the prospects for a very large yield were never better.

A step in the right direction is being taken by a number of settlers in this district, in ploughing fireguards taking in about four miles square. Six furrows were ploughed on each side of the road allowance, the grass on which will be burned off as soon as practicable. The farmers who are interested in the work are Messrs. H. C. Gilmore and sons, W. R. Barlee, A. R. Ross, L. O. Delahay, E. Evatt, G. Sylvain, Wm. Moffatt and sons, Jas. McCoy and J. P. Fowler.

A great deal of annoyance is being caused to settlers by bulls running at large in this locality. There is a law forbidding it, but the settlers are backward in laying complaints against guilty owners. Would it not be a good idea for the police to take a look around, as there is \$5 reward for anyone taking the matter up.

A couple of Missionaries who reside not a hundred miles from here met with rather a peculiar experience while out boating on the lake recently. They were attracted by the noise made by a calf in the lake, with nothing visible but its head. They at once rowed to the relief of the animal, and in trying to rescue the calf, one of them tumbled into the water and the other went through the bottom of the boat. They succeeded in reaching the shore, with no more serious results than a good wetting, and found that the calf which they had been so anxious to help had merely gone into the water to escape from the mosquitoes.

IMPERIAL FEDERATION.—Will present an opportunity to extend the fame of Dr. Fowler's Extract of Wild Strawberry the unfailing remedy for cholera, cholera morbus, colic, cramps, diarrhoea, dysentery, and all summer complaints, to every part of the Empire. Wild Strawberry never fails.

## PUBLIC MEETING.

## A Public Meeting of the Moose Jaw Ratepayers, discuss the Financial situation of the Town.

A public meeting of ratepayers called by Mayor Rutledge was held in Campbell's hall, on Monday evening for the purpose of discussing the financial situation of the town's affairs. His worship on taking the chair explained the object of calling the meeting, to get an expression of opinion from the ratepayers as to what course should be taken by the council to meet liabilities. From the statement made by the Mayor we gather that there is at the present time \$1700 in the town treasury. A Chemical engine has been purchased on which there is upwards of \$2500 due, the estimated expenditure for next year, for school purposes \$3350; for municipal expenses \$1549; making a total of \$7599, from which deducting the \$1700 on hand, leaves \$5899, to be raised. This on an assessment of \$200,000, would require a rate of 20 mills on the \$ to raise the amount by direct taxation. He wished the ratepayers to express an opinion as to the advisability of applying the amount on hand, for the current expenses of the town, and raising an amount by debentures, to pay for the chemical, and other necessary permanent improvements, such as Town Hall, Fire Hall, etc.

Councillor Colpitts, was in favor of raising money by debentures. Permanent improvements were required in the town, and it was not fair that the people who are here now should be compelled to pay for them by direct taxation, for the benefit of those who would come after. As for the Chemical engine, he did not believe it was any use but he did not see any way out of the difficulty, except by accepting it and paying for it.

Mr. T. B. Baker said that it was a fine thing to be able to say that our town is free from debt, but that when it was brought home to the ratepayers by a 30 mills rate, it was not a matter of sentiment, but one of business. The amount required for school purposes was large, but as a member of the School Board he would say that they had figured the amount required, as closely as possible, without impairing the efficiency of the school. He would like to see an effort made to get some arrangement with the Engine company which would be mutually satisfactory, and the payments spread over a term of years. If such an arrangement could not be made, he would be in favor of raising a certain amount by the issue of debentures. He thought the Council should have presented a clearer statement of their assets and liabilities so that the ratepayers could have discussed the financial situation more intelligently.

Mr. G. M. Annable also spoke in favor of the issue of debentures. He thought that in town affairs, economy could be carried too far. He believed that a Chemical engine was the best fire protection for the town at the present time and if the engine came up to the contract, it would, he thought be of good service to the town.

Mr. S. Green thought that the debenture idea was a good one. It paid sometimes to incur debt, and the future citizens of Moose Jaw should bear a share of it. The Chemical engine had been called a "White Elephant," and he did not think it was any good.

Mr. R. L. Alexander asked the Mayor whether a proper test of the engine had been made, and if it fulfilled the terms of the contract. If it did there was no use in trying to get out of accepting it, and if it did not, as a matter of justice the town should not be compelled to pay for a machine, that was of no use.

In reply to Mr. Alexander the Mayor read two letters from Mr. Andrews giving the statement of Mr. Griesdale, the expert sent up from Winnipeg, that the engine had fulfilled the requirements of the contract and stating that a draft for the amount had been sent up for acceptance. He had witnessed the test, and for his part he did not think it came up to the guarantee. This also appeared to be the verdict of the large majority of the ratepayers who had witnessed the test.

Mr. Grayson, moved seconded by Mr. G. M. Annable that a committee consisting of the Mayor, Messrs. Colpitts, Gass, Ross, and Baker, be appointed to report to a subsequent meeting of the ratepayers, as to the advisability of raising \$5000, by the issue of debentures, and to give the estimated cost and plans for a bridge across the river at foot of Manitoba street, and a town hall, also amount required for the Chemical engine. The bridge was a necessity, if the trade of the farmers to the south of the town was to be encouraged. The town had reached a stage, and the future prospects were so favorable that a town hall is required for the meetings of the council and for holding public meetings. The motion was carried, after which the meeting adjourned.

MINING NEWS.—Mining experts note that cholera never attacks the bowels of the earth, but humanity in general find it necessary to use Dr. Fowler's Extract of Wild Strawberry for bowel complaints, dysentery, diarrhoea, etc. It is a sure cure.

## CORRESPONDENCE.

## TWO THOUSANDFOLD.

To the Editor of the TIMES.

On Monday last there was unfolded to me in a visit paid to the Coventry settlement, somewhat of the wonderful capabilities of the soil upon Jonathan Thompson's farm 22-15-24. I saw thirty acres of oats, the best I have ever witnessed in any country, and especially on the first year's breaking. Accompanied by these gentlemen I went to the field, and being anxious to learn the actual product from a single seed, two roots were taken up, upon one of these were counted thirteen stems, and upon the other sixteen stems. These roots were average and not selected from the crop. One stem had 224 seeds and another had 243. We counted the grains upon the root having thirteen stems, and the number contained was 1957. If we had taken the root containing sixteen stems we should have had nearly three thousand grains. The width of the oat blade was one and a quarter inches. The length of the head of the oats was sixteen inches. The height of the oats was four feet, six inches, and the whole field was uniform in height. I do not think this is an exceptional crop for the Moose Jaw district this year, as I have seen several crops of wheat, so uniform in height and development that they cannot be excelled in any country. I have yet to see any equal to them in Ontario, Manitoba, Assiniboia and Alberta.

JOHN McLEAN.

To the Editor of the TIMES.

Sir—It is sometimes stated and on what grounds I am unable to discover, that the land of the Moose Jaw district south of the C. P. R. is not as good for farming purposes as that on the north side. It is not my intention to discuss this matter, but to state that in order to satisfy myself as to the condition of the crops in general throughout the district, I have visited every part, north, south, east and west of the town and am pleased to be able to state that in every section the crops are splendid. Last week I visited several farms south and southwest of the town and saw crops which were really magnificent, and not surpassed in any part of the North West.

Among others I called on Mr. A. Dunlop on west 1-2-15-26, a settler who came in and made his entry last summer. He certainly deserves more than a passing notice. He has 40 acres of good wheat and 10 of barley, the superior of which I have not seen this season. He has a comfortable frame house, a commodious farmstable and a well with an abundant supply of water. His garden was last May, a virgin prairie; now it contains a fine lot of roots and vegetables. He has sixty young trees, which he received from the Dominion Government Experimental farm and which are growing beautifully, besides a large plot of seedlings. Mr. Dunlop's farm is a credit to him, and a proof of what can be accomplished by a man of push and energy, in so short a time in the Moose Jaw district.

Messrs. Hy. Bates, Colin and R. K. Thompson, E. N. Hopkins and other settlers in the same locality have all magnificent crops of wheat averaging at least 4½ feet in height. I pulled the product of one grain of wheat out of Mr. Thompson's field and found that the heads contained 1456 grains, an extraordinary result, but true. A thunder storm coming up I took refuge in the home of my old friends Mr. and Mrs. W. Murphy who treated me with their usual hospitality. After the storm passed over I was shown over the farm and through the garden of these thrifty and industrious settlers. Of his wheat and oat crop it is sufficient to say that there is none better in the district. He showed me one field, which from present appearances will average from 30 to 35 bushels per acre and that on land which has only been ploughed once in five years. His garden contains a fine lot of vegetables, but what pleased me most was that he had so many nice young trees growing. He has maples over eight feet high, grown from seed planted four years ago, and which Mr. Murphy assured me, if he had not cut down last year to form a hedge to shelter his smaller fruits, would have been 15 or 20 feet high. I cut off one branch of this year's growth, which measured 49 inches in length. He has also poplars, mountain ash, willow, spruce etc., which show a wonderful growth. His small fruits are also doing well. The garden is beautifully situated in the east side of a ravine through which flows a nice spring of pure water, with an abundant supply for every purpose. Judging from what I saw, the southern part of this district has nothing to fear from comparison with any other part of the North West. Yours Truly,

R. L. ALEXANDER.

THE GRAND TRUNK SYSTEM.—The Grand Trunk system differs from the human system, in that the same troubles do not affect it and the same remedies are not needed. For all diseases of the human system there is no tonic purifier, renovator and strengthener so good as Burdock Blood Bitters. A weak system can be built up by B. B. B.

WHAT'S THE REASON.—The causes of summer complaint, diarrhoea, dysentery, cholera morbus, etc., are the excessive heat, eating green fruit, over-exertion, impure water and sudden chill. Dr. Fowler's Wild Strawberry is an infallible and powerful remedy for all bowel complaints from whatever cause.

FRIDAY, JULY 31, 1891.

### TOWN and COUNTRY.

The fine warm weather, is having a grand effect on the crops.

Mr. G. M. Annable got in a carload of horses from Ontario on Monday.

Barley harvest will commence next week in some parts of the district.

WANTED—Immediately a good general servant. Apply to J. G. Goss.

Mrs. G. M. Annable.

St. John the Baptist Church Sunday School, are holding their annual picnic this afternoon.

Mrs. Van Aylstone and Miss Murray left on Wednesday for their home in Winnipeg.

Miss Smith, who has been visiting in Chicago, for the past few months, returned on Wednesday morning.

Fishing at the river is good, and some fine specimens are being captured by the disciples of Isaac Walton.

The crop reports from Caron are excellent. Everybody is jubilant over the prospects.

MONEY TO LOAN—Private Funds—on Improved Real Estate Securities.—J. G. Goss.

Mrs. Bellamy left on Monday evening's train for a visit to Ontario, to be absent several months.

Mrs. Christie mother of Mrs. J. E. Annable, who has been visiting here for the past couple of months left last night for her home in Ontario.

The farmers are busy putting up hay, of which there is an abundant crop in the sloughs. In some places a ton to the acre can be cut on the open prairie.

Canada Permanent Loan and Savings Co. Money to Loan. Apply to Wm. Grayson.

Mrs. Chalmers, of Moose Jaw, is in town, paying a visit to her sisters, Mrs. Clarke and Mrs. J. G. Oliver.—Battleford Herald.

The C. P. R. has ordered 50 new locomotives and 1,500 box cars to transport this season's harvest from the North West to the seaboard.

The Highland Association of Illinois has elected Sir William G. Cunningham honorary chief of the Association in place of the late Sir John Macdonald.

On the Bellamy's for the Celebrated Doherty Organ, Evans Piano and White's Sewing Machine.

A meeting will be held in the C. P. R. Reading Room, to night at 8 o'clock for the purpose of organizing a lacrosse club.

Another letter from "Right" on the license question has been handed in to the Times, but owing to pressure of work we are obliged to hold it over until next issue.

A public meeting will be held to night in Campbell's hall, for the purpose of receiving the report of the committee, re. debentures. A full attendance of ratepayers is requested.

Mr. Shellington Smith of Regina passed through town on Tuesday with a band of horses, which he had driven from Fort Macleod, a distance of about 390 miles in 12 days. Mr. Smith intends starting a horse and sheep ranch in the hills south of Moose Jaw, during the coming fall.

One of Edison's Phonograph was on exhibition at the C. P. R. Dining Hall last week and attracted a considerable crowd of people who were greatly interested in hearing Kelly's songs and other selections, which were rendered quite distinctly. The Moose Jaw Brass played a selection into the machine, for the benefit of the people of other towns in which the Phonograph will be exhibited. The parties having it in charge find it a paying concern.

Large posters will be out next week announcing the C. P. R. Employees, annual excursion and picnic on August 14th.

No. 1 Express passed through town this morning in two sections. The second train was filled with a Raymond and Whitcomb Alaska excursion party.

The Winnipeg Free Press acknowledges the receipt of a box of vegetables from the C. P. R. Gardens at Moose Jaw, and says: "The variety and excellence of the samples were the object of admiring remarks from those who saw them."

A mistake occurred in our report, last week of the names of Moose Jaw citizens who visited Regina. Mr. J. G. Chalmers name appeared among the number but it should have read Mrs. J. G. Chalmers, who stopped off at the Capital for a short time, when en route for Battleford.

FOR SALE—A first-class buggy. Nearly New will be sold cheap. For further particulars apply to W. D. PALMER Moose Jaw.

Mr. Arthur Trent of Trent Bros. Ranch, south of Maple Creek was in town this week. Arthur reports having secured a first class range for horses, with plenty wood, hay and water.

Lieut. Governor Schultz, of Manitoba has accepted the position of honorary vice-president of the Macdonald national memorial to be erected at Kingston and promises to do all in his power to be of service in the matter.

More dwelling houses have been erected in Moose Jaw, already, this season, than in any summer since 1883. The town is surely and steadily going ahead, and is destined to be the principal town in Assiniboia.

Two first-class rooms to let—Gentlemen preferred apply to

F. G. HERLEIN, Manitoba street

Miss Jennie Bearpark, of Tilsburg, Ont., who has been visiting her sister Mrs. J. S. Ostrander, for some time past, left on Monday night's train for her home in the east.

Forty ear loads of beef cattle, about 1000 head, for the Old Country market, passed through here this week, from the ranch of Cummings & McGregor in Alberta. The animals were in splendid condition.

At a general meeting of the shareholders of the Moose Jaw Electric Light and Power Company held last Friday night, Messrs. J. H. Ross, C. A. Gass, A. Smith, G. Holdsworth and A. Daly were elected directors of the Company for the ensuing year.

FOR SALE—One span of young mares or wagon and a set of harness, nearly new. Will be sold on reasonable terms. Apply to RUSSEL WILSON, Moose Jaw.

Mr. J. A. Kammerer paid a flying visit to town last week. J. A. K. is pushing business for the Royal Electric Company of Montreal, in good shape, and has at present, several contracts on hand. He left on Monday morning for Prince Albert.

A little four year old daughter of Mr. J. M. Summington had the misfortune to fall down the cellar stairway of E. A. Baker & Co's store on Monday forenoon, breaking her leg a short distance above the knee. The factored limb was set by Dr. Turnbull, and the little patient is doing as well as can be expected.

Mr. A. McMillan B. A. teacher in the Toronto Collegiate Institute is in town on a visit to his mother, brothers and sisters who are residents of Moose Jaw, and district. He is much pleased with the appearance of the country and will carry back to Ontario a favorable impression of the North West.

A report appeared in the Winnipeg Free Press of last Thursday, that a quantity of whiskey which was being smuggled into the Territories, in trucks had been seized by the police at this place. On inquiry of the police we find that the report is entirely without foundation, and that as far as they are aware, no liquor is being smuggled into this town.

That Timothy can be successfully grown in the Moose Jaw district has been proven by H. C. Gilmore of the Buffalo Lake district. Mr. Gilmore left at the Times office this week a bunch of Timothy which measured three feet nine inches in length, the seed of which was sown last season. Mr. Gilmore intends cutting his crop for seed and will next spring sow a considerable area of this grass.

A meeting of the Directors of the Moose Jaw Agricultural Society will be held in the office of the Secretary, Mr. R. L. Alexander, on Saturday, August 8th, at 2 o'clock, for the purpose of closing up business in connection with the Fall Exhibition and Fair Grounds.

We neglected last week to note the attendance of the Orangemen of the district at divine service in the Presbyterian Church on the previous Sabbath. They assembled at the hall, and marched in procession, 40 strong, to the church where a sermon was preached to them by the pastor Rev. W. L. Clay. They presented a very fine appearance as they marched up Main street, with their bright regalia, badges and sashes. Orangemen secured a strong foothold in the Moose Jaw district, and the members of the order are to be congratulated in the energy which they are displaying in advancing the interests of the society. The principles of the Orange Order, will find congenial soil; on the broad prairies of the Canadian North West.

A Georgia editor, who is also a real estate agent, a building and loan association director, an attorney-at-law, clerk of the town council, and pastor of town church, was recently called upon to perform the marriage ceremony. He was in the middle of a heavy editorial on the tariff. Time is money said he, without looking up from his work. Do you want her? The man said yes. And do you want him? The girl stammered an affirmative. Man and wife, cried the editor. One dollar. Bring me a loaf of wood for it—one third pine, balance oak.

An interesting cricket match was played on Wednesday between the Gossings Cricket Club and the Moose Jaw Baseball Club, in which the Gossings were victorious, beating the baseballers by five wickets. Among the special features of the game were the excellent bats of C. E. Green and Geo. Tuxford, Green carrying his bat through the second innings and making more than half the runs for his side. Ross and Blackburn played good cricket, especially at bat, and Birbeck and Stunt did some fine bowling. Other players distinguished themselves on the field. The following is the official score:—

MOOSE JAW BASE BALL CLUB.	
First Innings.	Second Innings.
McNutt, c Wright, b Birbeck, 0	c and b Clive, 0
McLeod, b Birbeck, 3	c Clive, b Birbeck, 9

### FALL EXHIBITIONS.

The following circular has been received by the Secretary of the Moose Jaw Agricultural Society re. Fall Exhibition:—

Grenfell, July 18th, 1891.

To the Secy. Treas. Agricultural Society, Moose Jaw.

DEAR SIR—We have about completed arrangements re. Judges from the east for our Fall Shows, as suggested in our circular of 14th February, and as it has been suggested that we arrange the dates of various shows, we have arranged the following:—

Whitewood, Thursday, October 1st.  
Broadview, Saturday, " 3rd.  
Grenfell, Tuesday, " 6th.  
Wolsely, Wednesday, " 7th.  
Indian Head, Friday, " 9th.  
Qu'Appelle Fort, Monday, " 12th.  
Qu'Appelle Station, Wed., " 14th.  
Regina, Thurs. & Friday, " 15 16th.  
Moose Jaw, Saturday, " 17th.

We have thought it better to allow a few intervening days between the shows to give the visitors and judges an opportunity to see as much as possible, as it is our object to advertise the country as much as possible. Hoping these arrangements will meet your approval, I remain,

Yours Truly,  
H. Cox,  
Secy. Treas.

### BOHARM.

The following is the report of Boharm school for the term ending June 31st.—Number of pupils on roll 12; average attendance 9. Names of those who attended every day of the term:—Harry Porter, Bennie Thomson, Robert Porter and Grant Thomson. The result of the last monthly examination was as follows:—4th class—Marks obtainable 960, Eva Porter Porter 486, Maggie Latham 415. 3rd class—Marks obtainable 670, Harry Porter 388, Bennie Thomson 331. Sr. 2nd class—Marks obtainable 360; Annie Hill 285. Jr. 2nd class—Marks obtainable 325; Grant Thomson 231. Willie Johnston 222, Robert Porter 209. Part 2nd class—Marks obtainable 150; Neil McGinnis 97.

A NATIONALIST PLAN.—A proposal, which would obtain favor with even the opponents of Nationalism, contemplates the placing of a supply sufficient for each family of nature's great dyspepsia specific and blood purifier, B. B. B., in every home in the land. The benefits of such a boon to the people would be incalculable.

HEALTH, HAPPINESS AND PROSPERITY.—All these depend on pure blood, for without it health is impossible; without health happiness is impossible, and without happiness prosperity is a mockery. No means of obtaining pure blood and removing bad blood equals the use of B. B. B., the best blood purifier known.

### Don't Miss it.

A new and attractive publication containing many useful, interesting and instructive features has just been issued by T. Millburn & Co., of Toronto, under the title of the Burdock Blood Bitters Almanac for 1891. It is now in the hands of the druggists and merchants for free distribution and we would promise our readers to secure a copy before the supply is exhausted.

SEALERS TENDERS addressed to the undersigned, and endorsed Tender for Industrial School, Red Deer, N. W. T., will be received at this office until Monday, 10th of August, 1891, for the several works required in the erection of Industrial School, Red Deer, N. W. T.

Specimens can be seen at the Department of Public Works, Ottawa, and at the office of H. D. Johnston, Calgary, N. W. T.; at the office of H. J. Peters, Regina, and at the office of B. Smith, Winnipeg, on and after Monday, 24th July, and tenders will not be considered unless made on forms supplied and signed with actual signatures of tenderers.

An accepted bank cheque payable to the order of the Minister of Public Works, equal to five percent of the amount of tender, must accompany each tender. This cheque will be forfeited if the party declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender. The Department does not bind itself to accept the lowest or any tender.

By order,  
E. E. ROY, Secretary.  
Department of Public Works,  
Ottawa, 11th July, 1891.

### NOTICE!

The public are hereby cautioned against negotiating a note made by me, in favor of H. Ripstein & Co. due on August 4th as payment of same has been stopped.

H. CARTER.  
Dated Moose Jaw July 20th 1891.

**SIR JOHN'S BIOGRAPHIES.**

**Col. McPherson's Not Authorized by the Family—Mr. Pope to Write One.**

Ottawa, July 26.—An emphatic denial by Baroness Macdonald and Hugh John Macdonald, M. P., of the statements contained in an advertisement of Lieut. Col. Pennington McPherson's forthcoming biography of Sir John will be issued in a few days. The paragraph which has apparently given offence is as follows: "The fame of Sir John Macdonald is so great and unique in Canada that many biographies of him are sure to be published. For the most part these will be what are vulgarly called fakes, intended only as catchpennies and necessarily defective, because their authors have not had access to original sources of information. It is known that Sir John for several years before his death collaborated with his nephew, Col. J. Pennington Macpherson, in writing an authoritative life. This work was approaching completion when the distinguished statesman died, and Col. Macpherson is now at work upon the final chapters. This will, of course, be the biography and the only one having the direct approval of the family."

It is rumored here that Jos. Pope, Sir John's secretary, will in due time issue a biography which will have the approval and endorsement of Baroness Macdonald. Mr. Pope probably knew the late Premier better than any individual and will have access to rare documents and MSS. of great historical value.

**A Blarney Stone.**

The village of Blarney is in the north of Ireland, about four miles from Cork Blarney Castle was built by Cormack MacCarthy, "the strong," fourth lord of Muskerry, about the middle of the fifteenth century. The ruins of the famous old fortress are visited by thousands of tourists every year. This is largely on account of a tradition which has been attached for some centuries to one of the stones used in building the castle. This stone is said to communicate to the tongue that touches it the gift of gentle, insinuating speech, and that has given rise to the accusation when any one is of particularly sweet accent that he or she has "kissed the Blarney stone." A song written by Richard Alfred Millikin in 1798, refers to the local tradition in these stanzas:

"There is a stone there,  
That whosoever kisses,  
Oh, he never misses  
To grow eloquent.  
'Tis he may clamber  
To a lady's chamber,  
Or become a member  
Of Parliament.  
'A clever spouter  
He'll turn out—or  
An out-and-outer  
To be let alone!  
Don't hope to hinder him  
Or to bewilder him,  
Sure he's a pilgrim  
From the Blarney stone."

To be always intending to build a new life, but never to find time to set about it—this is as if a man should put off eating and drinking and sleeping from one day and night to another, till he is starved and destroyed.

**A Smart Boy.**

There is a good story going rounds about a man who has become a successful merchant. A few years ago he was employed as an office boy and messenger for a large firm. He was sent to collect an account from a firm which was considered very "shaky," and was told to get the money at all hazards. The debtors gave the lad a cheque for £50. He went to the bank at once to cash it, and was told by the cashier that there were not enough funds to meet it. "How much short?" asked the lad. "Thirty shillings," was the answer. It lacked but a minute or two of the time for the bank to close. The boy felt in his pockets, took out thirty shillings, and pushing it through the window, said, "Put that to the credit of Blank & Co."

The cashier did so, whereupon the boy presented the cheque and got the money. Blank & Co. failed the next day, and their chagrin can be better imagined than described when they found out the trick that had been played upon them. This story, however, is in all probability a lie.

**Making Comparisons.**

"Why don't you run a paper like that?" said a merchant to a publisher, throwing down a blanket-sheet daily. "Why don't you run a store like that?" asked the publisher of the country sheet, as he turned the paper and pointed to a full-page advertisement for which the city publisher received \$250 an issue. Just then, the country publisher presented a monthly bill for five dollars, and the merchant began to talk of economizing by cutting down his advertisement and stopping his paper. He did both, and now the sheriff is doing his advertising for him. —Guelph Herald.

**A GOOD SPEC-ISM.**

Enterprising publisher—Another government clerk has gone wrong, Mr. Wormwood; write a scathing article about him.

Wormwood—But he is a Liberal and was appointed by the Mackenzie government.

E. P.—Well, say he was not to blame very much; but that condign punishment should be meted out to the head of the department who permitted such scandalous transactions.

W.—The head of the department is also a Liberal, and was appointed by the Mackenzie government.

E. P.—Well, skip him, and call attention to the slovenly manner in which the Tory auditor performs his duties. Why didn't he stop such scandalous proceedings? Give it to him hot.

W.—Unfortunately, he also is a Liberal and was appointed by the Mackenzie government.

E. P.—Confound 'em! are they all Liberals? Well, pitch into the minister, and rake him fore and aft. He is a Tory anyhow. —Hamilton Spectator.

Legitimate advertising in newspapers always pays. It is hardly a fair thing to ask a customer who has dealt generously with you to become an unwilling advertisement by carrying his or her bundles placarded with your business sign. The young lady who told the clerk to turn that wrapping paper the other side out hit the nail squarely on the head. She was right. That sort of wrapping paper is a relic of cross roads storekeeping.

**Sunshine.**

Clara—Darling, have you seen your father?

Charles—Yes, and he gave me a cool thousand.

"How lovely; everything is brightening now."

"Of course it is. Brightness is sure to follow the rain of the sun."

**A Blessed Hope.**

He (alluded to the widow)—How embarrassing it will be, when we die, to meet your first husband!

The widow—Possibly, my dear, you and the sainted dead will abide in different regions. That is my hope.

**A Stay of Proceedings.**

She (sweetly)—The moonlight is beautiful to-night, George.

He (desperately)—I know it is Nellie, but I can't propose to-night—I forgot the ring. You will forgive me, won't you?

**A Question.**

Young husband—Don't you quite understand how to do it, darling?

Young wife—Yes, it is all quite clear; but it says "first clean your turkey," and I was wondering whether one should use toilet or regular scouring soap.

**AYER'S PILLS**

Excel all others as a family medicine. They are suited to every constitution, old and young, and, being sugar-coated, are agreeable to take. Purely vegetable, they leave no ill effects, but strengthen and regulate the stomach, liver, and bowels, and restore every organ to its normal function. For use either at home or abroad, on land or sea, these Pills

**Are the Best.**

"Ayer's Pills have been used in my family for over thirty years. We find them an excellent medicine in fevers, eruptive diseases, and all bilious troubles, and seldom call a physician. They are almost the only pill used in our neighborhood."—Medson G. Conly, Row Landing, P. O., W. Feliciana Parish, La.

"I have been in this country eight years, and, during all this time, neither I nor any member of my family have used any other kind of medicine than Ayer's Pills, but these we always keep at hand, and I should not know how to get along without them."—A. W. Soderberg, Lowell, Mass.

"I have used Ayer's Cathartic Pills as a Family Medicine for 25 years, and they have always given the utmost satisfaction."—James A. Thornton, Bloomington, Ind.

"Two boxes of Ayer's Pills cured me of severe headache, from which I was long a sufferer."—Emma Keyes, Hubbardston, Mass.

**Ayer's Pills,**
